

**SOUTH EAST ENGLAND
REGIONAL TRANSPORT BOARD**

Date: 6 January 2006

Subject: **Regional Transport Priorities and the RES**

Report of: Director of Development and Infrastructure
South East England Development Agency

1. Purpose of the Report

- 1.1 SEEDA has been considering how well the regional prioritisation work reflects the transport priorities for the region as expressed in the current Regional Economic Strategy, recognising that this is of course one of the main input sources for the methodology. Attached is part of a report considered by the SEEDA Board in December which attempts to draw out these comparisons, and this is put forward for information and consideration by the RTB.

**Paul Hudson
Director of Development and Infrastructure
