

Correction to Map 16: Number of dwellings completed since 2001

Please note that Map 16 (Number of dwellings completed since 2001) in the 2005 Regional Monitoring Report shows the wrong data. The correct version of the map, which shows the total number of dwellings completed in each district in the South East since 2001, is as follows. The data shown in Figure 42 and the accompanying text are unaffected and are correct as originally published.

Map 16
