

# 3 NON – RFA PROJECTS

## Projects Funded By Other Sources

The introduction explained that the Regional Transport Programme covers 79 projects that will be delivered between 2006 and 2016. The 43 prioritised projects, funded through the regional funding allocation (RFA), are described in detail on factsheets in a previous section of this fact book (see section 2 ‘The projects’).

This section lists the 36 projects funded by other sources, which are set out in a table overleaf and are indicated on a map. The table includes contact details for the Local Transport Authority of the area in which the project is located and the funding source of the project. The Local Transport Authority may not be the project coordinator, but may be able to provide further information.

The map gives an indicative location of the 36 projects and should not be relied upon. Numbering in the table and on the map is strictly for reference.

## Non-RFA project index

	<b>PROJECT</b>	<b>LOCAL TRANSPORT AUTHORITY CONTACT</b>	<b>FUNDING</b>
